Simple ways to save.

Stay in the network.

The doctors and facilities in the network may have agreed to provide services at a discount—so staying in network makes sense, especially when visiting an out-of-network provider could end up costing you a lot more for care. Sign in to myuhc.com > **Find Care & Costs** to locate:

- Labs
- Hospitals
- Mental health professionals
- Network doctors
- Pharmacies

Look up the cost of a medication.

Sign in to myuhc.com > **Pharmacies & Prescriptions** to find information about your medication, pricing and lower-cost options.

Shop around.

With such a wide variety of services, from minor procedures to major surgeries, it's a good idea to check approximate pricing first. Visit myuhc.com > **Find Care & Costs** to estimate your costs. Members who comparison shop may save up to 36%* for care near them.

Know everything—from benefits to balances and beyond.

Watch your personalized video for another way to understand your coverage, out-of-pocket costs and how your plan** works. Watch (and re-watch) anytime by signing in to myuhc.com > **Coverage & Benefits**.

*UnitedHealthcare Internal Claims Analysis, 2015.

**Information will vary to reflect your actual coverage. Members with a Health Incentive Account are not eligible for the video.

Get connected to care.

Pick a network PCP.

A PCP is a primary care provider, sometimes called a primary care physician or doctor. A PCP can be a family practitioner, internist, pediatrician or general medicine physician.* Although your plan may not require you to choose a PCP,** it's a good idea to have one. Your PCP generally:

- Knows your history.
- Builds an in-depth knowledge of your health over time.
- May guide you on the best path of care.
- Can advise you when to see a specialist and provide electronic referrals.

Find a network provider.

Sign in to myuhc.com > **Find Care & Costs** to find a network PCP, clinic, hospital or lab based on location, specialty, reputation, estimated cost of services, availability, hours of operation and more. You can even see patient ratings and compare cost estimates before you choose a provider. If you would like more information about a provider's qualifications, call the toll-free member phone number on your ID card.

Make more informed choices.

The **UnitedHealth Premium® program** uses national, evidence-based, standardized measures to evaluate physicians in various specialties to help you locate quality providers. Find UnitedHealth Premium Care Physicians by going to myuhc.com > **Find Care & Costs** and look for blue hearts. ♥♥

Keep up on preventive care.

Preventive care—such as routine wellness exams and certain recommended screenings and immunizations—is covered by most of our plans at no additional cost when you see network providers. A preventive care visit may be a good time to help establish your relationship and create a connection for future medical services. Learn more at uhc.com/preventivecare.

It's good
to know.

And good
to save.

*Laws in some states allow you to choose a specialist, like an OB/GYN, as your PCP.

**Depending on your health plan, selection of a PCP may be required.

Know what to do if you need:

Hospital care

Talk to your PCP first to determine which hospital in your network can meet your medical or surgical needs. You or the admitting physician may be required to notify us before you're admitted.

Referrals

If your ID card states "Referrals Required," you'll need an electronic referral from your PCP before seeking services from another network provider. Without it, your care may not be covered and you may end up paying more. To learn what services require referrals, or to confirm a referral has been made, sign in at myuhc.com > **Coverage & Benefits**.

Prior authorization

Your plan may also require prior authorization, sometimes called preauthorization, before you receive certain services. This means that you or your network provider may need to get approval from your plan before the services are covered. Call the toll-free member phone number on your ID card or sign in at myuhc.com > **Coverage & Benefits** to check if prior authorization is needed.

Here's how a typical health plan works.

Let's take a look at an example of how a typical plan works when you receive care from a network provider. Your plan may be different than this example, so to find your specific details go to myuhc.com > **Coverage & Benefits**.

For example:	
At the start of your plan year... You're responsible for paying 100% of your covered health services until you reach your deductible , which is the amount you pay before your health plan pays a portion.	You pay 100%
Along the way... You may also be required to pay a fixed amount—or copay —each time you see a provider or purchase a prescription.	You pay 100% of the copay
Once you reach your deductible... Your health plan starts to share a percentage of the costs for covered health care services with you—this is your coinsurance .*	You pay 20%* Your plan pays 80%*
When you reach your out-of-pocket limit... Your plan covers the costs (the allowed amount) for covered health services at 100%. Your out-of-pocket limit is the most you'll pay for covered health services in a plan year—copays and coinsurance count toward this.	Your plan pays 100%

* Your coinsurance may vary by service. This example is for illustrative purposes only. Please visit myuhc.com > Coverage & Benefits for your coverage details.

Get to know your care options and costs.

How much you pay for care can depend on where you get it—and a great place to start is with your PCP. For serious or life-threatening conditions, call 911 or go to an emergency room.
